1. Executive Summary

CREST stands for Creative Recording, Events & Studio Training. It is an adults-only programme that uses music, media and production practice to build confidence, technical skills and progression routes into the wider creative industries.

CREST is portable, practical and ready to commission. It is designed for arts centres, adult education providers, community organisations, reintegration services, Men's Sheds, charities and other non-profit settings seeking a contemporary music and media literacy strand for adults.

A host organisation does not need to invest in a specialist studio. Brian Burns can arrive, set up and deliver almost anywhere with a suitable room and a power source.

2. Why CREST Works

The course has already been piloted twice with PACE in two separate 12-week cycles for adult post-release learners, seven participants per cycle.

The curriculum begins with music and media practice, but it can also move into podcasting, sound, livestreaming, editing, events, hardware familiarisation and professional self-presentation.

3. Delivery Model

A standard in-person day can accommodate up to four classes with up to six learners per class, depending on the organisation's preferred timetable and learner needs.

Students are encouraged, but not required, to bring laptops and headphones. Browser-based and virtual demonstration tools help remove cost barriers.

4. Commercial Terms

The minimum commissioning commitment is 12 weeks. Where a partnership works well, a second consecutive 12-week block can be agreed, but this is an option rather than a requirement.

5. Pricing Snapshot

Format	12-week minimum	Optional 24 weeks
In-person (€280/day)	€3,360	€6,720
Online (€130/day)	€1,560	€3,120

6. Closing Invitation

CREST is ready to be commissioned now. Organisations that want an adults-only creative media programme with proven delivery, flexible pathways and minimal hosting burden are invited to discuss a 12-week booking with Brian Burns.
